## SALES AND MARKETING

### Company Profile

Founded in 1963 and Family owned, Wasco Sales and Marketing is headquartered in Santa Maria, California. Wasco has developed into a vertically integrated manufacturer of pressure switches and pressure transducers for use in a high variety of markets. Wasco boasts a strong culture of program management and product management systems to guide the development of many different types of product solutions to assist our customers in meeting the demands of their applications. Wasco Sales and Marketing is ISO-9001 Registered and maintains certifications for many of our products to CE, RoHs, and UL standards. Wasco's customers have integrated our products into their systems and obtained UL and FM approvals. The Wasco team possesses over 100 years of combined talent and expertise in providing solutions to customers in pressure related applications.

### Pressure/Vacuum Switch Highlights

- Multiple Switch Types for variety of markets
- Packages designed to meet harsh application environments
- Multiple Switching options:
  - SPST - N/O
  - SPST - N/C
  - SPDT
- Adjustable Pressure and Factory Set Options for activation points
- Multiple Harness and Connector Options
- Custom Fitting, Designs and Connection Options are always welcome

### Pressure/Vacuum Switch Models

- Value Capsule Series:
  - P500, V500, P110 & V110
- High Overpressure Series:
  - P250, P325 & P400
- Vacuum with Overpressure Protection Series:
  - V250
- All Welded Super & Ultra High Purity Series:
  - SP120, SV120, UHP150, UHP160
- Differential Series:
  - DP10, DV20, DP30 & DV40
- Dual Switches:
  - TP700 & TV700
- Value Welded Series:
  - P6 - Auto Reset (Plastic)
  - P10 - Auto Reset (Stainless Steel)
  - P11 - Manual Reset (Stainless Steel)
  - P12 - Auto Reset, High Temp. (Stainless Steel)
  - P16 - Auto Reset, Low Profile (Stainless Steel)

### Test/Contract Manufacturing Services

- Laser Welding
- Prototype and Small Run Machining
- Helium Leak Testing
- Harness Assembly
- Contract Assembly for Semi-Conductor market

### Pressure Sensors and Gauges

- 15 to 5000 PSI Transducers
- Ratio-metric 5V, 1-5V and 1-10V Output and Current Output
- Multiple Fittings and Connection Options
- Digital Pressure Gauges: 4", Panel Mount, Battery Operated and NPN - PNP outputs
